When I went there this morning I had 1 possibly 2 homeless people sleeping in the ne corner next to the buses. I warned them about you coming.

I'm sorry I missed you. We arrived on site late due to I90 closure. We were on site from noon to 3 pm. We took samples from a number of building materials to test for asbestos. We also sampled the contents of two drums (one is likely rain water and the other is likely used motor oil).

I should have lab results shortly after New Years. I will share the results when I get them.
